Fiscal years ended June 30, 2024 and 2023

Trust Fund Operations – Financial Information Summary for the Fiscal years ended June 30, 2024 and 2023

Introduction

Trust Funds¹ are financial and administrative arrangements made between Development Partners (DPs) and one or more World Bank Group entities to meet diverse development needs including project preparation, technical assistance, advisory services, debt relief, post conflict transition, disaster recovery, climate change, and co-financing of lending projects. Trust funds contribute to the Bank Group’s mission of poverty reduction on a livable planet by supporting the design and implementation of development projects.

This report provides aggregate financial information on trust fund operations administered individually or jointly by the International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC) and the Multilateral Investment Guarantee Agency (MIGA). These four entities are collectively referred to as the “Bank Group.” This report is unaudited, and is not intended to represent the combined financial position of trust funds and programs administered by the Bank Group. Numbers presented for previous periods have been regrouped to conform to the current period presentation.

Questions or comments on the report should be addressed to **Christopher R. Vallyeason**, Manager, Trust Funds and Accounting Department at cvallyeason@worldbank.org.

¹ This report uses the Trust Fund typology of IBRD/IDA Trust Funds, Financial Intermediary Funds (FIFs) and IFC Trust Funds. The following are not included in this report: (1) the Advance Market Commitment (AMC), which is a FIF but not a trust fund, and (2) trust funds that are managed separately by IFC (trust funds which support IFC’s Special Initiatives and Investment Programs) which do not form part of the investment portfolio maintained by IBRD for trust funds.

Key Metrics

Cash contributions

- On an average, 13% of overall contributions received by IBRD/IDA/IFC TFs are from FIFs, where IBRD/IDA/IFC play an implementing agency (IA) role. FIFs therefore, indirectly contribute to the IBRD/IDA/IFC trust fund activities.
- Around 89% of the FIF transfers to IBRD/IDA/IFC TFs in FY24 were from 5 FIFs and these accounted for 82% over the past 5 years.
- Top 10 donors accounted for 85% of the total IBRD/IDA/IFC TF contributions in FY24 with the top 5 accounting for 70% of the contributions.
- There has been a steep decrease in contributions from United States (↓\$15,476m) in FY24 as compared to FY23 as the majority of contributions towards trust funds supporting Ukraine through SALNTF* have been paid by the donor during FY23 in accordance with the administration agreements.

Cash Disbursements

- In FY24, disbursements from ECA region decreased significantly by 68% (↓\$11,663m), primarily due to lower disbursements of PEACE MDTF supporting Ukraine through SALNTF program. In RE Activities, disbursements of ECA and AFE regions accounts for 79% of disbursements in FY24, and on an average of 78% in the last 5 years.
- Staff costs increased by \$48m equivalent to 8% increase compared to FY23 and continues to be the largest expense category with CAGR of 5% over the last 5 years. Consultant fees increased by \$13m which is 3% higher than FY23, with CAGR of 7%. Travel costs increased by \$18m equivalent to 15% increase compared to FY23.

* Standalone trust fund program make up a diverse portfolio of typically smaller trust funds (non-umbrella programs). These TFs are established to finance activities that cannot be accommodated in an existing Global, Regional or country Umbrella.

Contribution and Disbursements

Contributions

- In FY24, contributions from top donors have decreased towards PPR and agriculture programs (GAFSP and CGIAR); while increased towards CIF, GEF and GBFF.
- Top 2 donors GFATM and United Kingdom accounted for 50% of the total contributions in FY24 and an average of 48% over the past 5 years.
- Disbursements from GFATM, GCF and GEF programs accounted for 74% of total disbursement in FY24 and on an average 70% over the past 5 years.
- GFATM has been the leading FIF constituting 41% of the total FIF contributions and 50% of total FIF disbursements over the past 5 years.

Trust Fund FY24 Key Highlights

- In April 2024, the President announced new financial instruments including the [Livable Planet Fund](#) totaling \$11,000m that will enable governments, philanthropies and other partner contributions to incentivize cooperation across borders and tackle shared challenges. Japan committed to providing the first contribution to the new Livable Planet Fund.
- Ukraine continues to receive support from the international community. New administration agreements have been signed in FY24 for various trust funds supporting Ukraine through SALNTF (\$10,167m) and URTF (\$661m) programs. Japan and United States were the major donors with expected funding of \$7,673m and \$2,655m respectively.
- During FY24, a new FIF, Global Biodiversity Framework Fund (GBFF) was established. The Trust Fund has been established following the decision of the Conference of the Parties to the Convention on Biological Diversity (“CBD”) at its Fifteenth Session (“COP 15”) to invite GEF to operate the Trust Fund. GBFF aims to support the Kunming-Montreal Global Biodiversity Framework. Five donors have contributed to-date to this FIF of which, majority of the funding was received from Canada (\$55m) and Germany (\$44m).
- TF reforms continued in FY24 with an aim to reduce fragmentation, increase strategic alignment and improve efficiencies of the trust fund portfolio by using fewer and larger Umbrella 2.0 Programs. As of June 30, 2024, 70 Umbrella programs (140 active trust funds) have been established. Four new umbrella programs - EGPS03, DIF, M - GROW and HSTRF have been initiated and activated in FY24.

Disbursements and FIF Transfers ⁶

2024 2023
\$18,761 ▼ \$28,803

There has been an overall decrease in disbursements and FIF transfers by \$10,042m (35%) during FY24 as compared to FY23. FIF transfers increased by \$1,196m (mostly due to GFATM and CEPI), disbursements from IBRD/IDA and IFC trust funds have decreased by \$11,264m and increased by \$26m respectively.

Top 5 Disbursing FIFs

Top 5 Disbursing IBRD / IDA Trust Funds

*includes Indirects costs of \$88m for FY23 (\$92m for FY23).

In FIF programs, the top 3 FIFs constituted 74% of the total FIF disbursements (FY23 71%) of which GFATM constituted about 53% (FY23 49%). FIF disbursements increased by \$ 1,196m primarily due to increase in disbursements for GFATM (\$925m) and CEPI (\$465m).

In IBRD/IDA TF, disbursements for RE activities were \$ 8,156m (FY23 \$19,480m) and 79% of these were in ECA and AFE regions (FY23 93%). SALNTF and URTF were the leading programs in these regions in which \$5,266m (FY23 17,074m) disbursements are related to Ukraine. Disbursements for RE activities are generally affected by the prevailing country environment, including capacity constraints, political environment, etc.

Disbursements for BE activities increased by \$60m (5%) in FY24 when compared to FY23 due to increase in travel and media workshops related to in-person meetings/consultations and associated travels, and other costs primarily due to increase in advisory management expenses. Staff costs also contributed to the overall increase by \$26m while STC and ETC costs increased by \$10m.

⁶FIF transfers exclude transfers made from FIFs to (i) IBRD/IDA/IFC as implementing Agency (IA) (ii) IBRD/IDA for administrative expenses as trustee and the expenses of in-house secretariats which are included in disbursements from IBRD/IDA trust funds.

⁷Includes disbursements by IBRD/IFC as Implementing Agency and Secretariat costs.

Key Trust Fund Activity

Undisbursed Commitments

Commitments refer to the amount of financing approved for project(s) or activity(ies) at the grant level. Undisbursed commitments refer to balance of commitments pending disbursement or transfers.

Top 5 FIFs with Undisbursed Commitments⁸

* The undisbursed commitments represent commitments made by IBRD as trustee on behalf of the Global Fund Secretariat.

Top 5 RE Activities with Undisbursed Commitments

Top 5 BE Activities with Undisbursed Commitments⁹

⁸ For FIFs, liabilities to implementing agencies for projects, fees and administrative budgets are considered as undisbursed commitments.

⁹ The available fund balances in disbursing funds are considered as undisbursed commitments for BE activities and IFC trust funds.

¹⁰ Includes undisbursed commitments of trust funds where IBRD/IFC is an Implementing Agency/Secretariat.

Key Trust Fund Activity

New Commitments

New commitments for BE activities and IFC trust funds represents the balance after netting out cancellations of unused commitments when trust funds are closed.

In FIF programs, commitments towards GFATM, GCF and GPEF have increased significantly by \$926m, \$743m and \$486m respectively.

In IBRD/IDA TFs, new commitments have decreased due to lower commitments towards SALNTF (↓\$12,856m) primarily of which are for TFs supporting Ukraine. This was partially offset by increase in new commitments for URTF (↑\$1,300m), GAFSP (↑\$85m) and ESMAP (↑\$82m).

Trust Fund Activity

New Administration Agreements

New administration agreements signed between the Bank Group and DPs represents contributions made to new trust funds and additional contributions made to existing trust funds. These are presented net of cancellations. The negative amounts are where the current period cancellations are greater than additional contributions.

Top 5 IBRD/IDA TF Programs by value of Cash Contributions

In FIF programs, GFATM has been the leading FIF constituting 42% of the total FIF contributions in FY24 (32% in FY23). Health sector accounts for 51% (47% in FY23) of the total FIF contributions mainly due to GFATM followed by IFFIM. Further, Climate sector accounts for 35% in FY24 (38% in FY23) primarily represented by GCF and GEF.

In IBRD/IDA TFs, contributions have significantly decreased in FY24 due to majority of contributions being fully paid in FY23 for TFs supporting Ukraine. United States have contributed additional \$2,630m in FY24 to TFs supporting Ukraine through URTF and SALNTF. The contributions to these programs are largely influenced by the prevailing country environment, including capacity constraints, political environment, donor appropriations, etc.

Commitment Authority

Commitment authority represents an upper limit up to which task teams can commit future disbursements at the individual TF level. The classes of assets that a trust fund could commit upon form the trust fund's Basis of Commitment (BoC). The asset classes that can be committed against are either (i) cash, (ii) cash plus promissory notes, or (iii) cash plus promissory notes and contributions receivable. The default BoC for a trust fund is cash, but may be modified to include promissory notes receivable and/or contributions receivable with the approval of Director(s) in the unit managing the trust fund. The trust funds grouped by BoC types and the funds available for commitments is presented in the table below:

Cash received from DPs contributions, loans from DPs and proceeds from the issuance of bonds (for IFFIM) are managed by IBRD's Treasury, which manages a commingled investment portfolio (the Pool) for all funds that are administered by the Bank Group entities. The Pool also includes funds held in ICSID's escrow accounts. IBRD maintains all assets underlying the trust funds' fund balances separate and apart from the assets of the World Bank Group. IBRD, on behalf of the World Bank Group, invests the funds in liquid financial instruments such as government and agency obligations, time deposits, money-market securities and asset-backed securities, as well as swaps and a range of other derivative instruments. Additionally, the pool may also include equity securities. The investment composition within the pool is based on the investment horizons and cash flow profiles of the trust fund programs. Net investment income earned by the Pool is allocated to each trust fund based on its share of cash and investments in the Pool.

Cash and Investments in DP Balance Accounts

DP balance accounts are established to hold unused funds from closed trust funds, investment income earned on active trust fund balances, or on a temporary basis, subject to separate agreement, funds pending the establishment of another trust fund. The funds in a DP balance accounts may only be returned to the DPs or transferred to other trust funds as a contribution from DPs.
